

REMARKS

In the response to request for corrected filing receipt mailed March 27, 2007, the Examiner states that "continuity claimed under 35 U.S.C. §120 cannot be added to the Filing Receipt without the applicant supplying the relationship in an Application Data Sheet or amendment to the first page of the specification.

Applicant notes that in the utility patent application transmittal, a request to amend the specification to include priority claim language was included. However, this amendment was not made to the application as evidenced by the corresponding Publication No. 20050216259. As such, the cross reference section is being amended by way of the current communication to provide the requisite relationship information on the first page of the specification.

As such, Applicant hereby requests that the United States Patent and Trademark Office amend the specification, correct its records, and issue a corrected filing receipt showing the proper domestic priority benefit claim. For reference, Applicant encloses a copy of the incorrect filing receipt with the desired corrections indicated.

Applicant believes there is no fee for this request. The Commissioner is, however, authorized to charge any additional fees which may be required to Deposit Account No. 06-0600. A duplicate copy of this letter is attached for this purpose.

Respectfully submitted,

Lloyd Watts
